lakes are set like jewels in the  
peaks that rim the Big Cotton-  
wood watershed. As lakes go, they are

and fall months, thereby insur-  
the city many millions additional

the time of spring floods.

lakes Phoebe and Lake Mary, the  
now constructing a great dam  
will raise the level of those lakes  
to store a hundred million gal-  
lons more. This water will be ac-  
cumulated in the springtime and will be  
released as necessary during the  
summer months in order to keep an  
even flow in the creek. The Owen Gray  
construction company has the contract.  
Already has made a good start in  
work. Construction will be re-  
sumed early in the springtime as the  
season will permit.

two lakes are situated in the  
less than a mile to the south  
of the resort at the head of Big  
Cottonwood canyon. There is a tier of  
lakes, one slightly higher than the  
last feeding the other with crys-  
talline waters which tumble over the  
cliffs that separate them. Naturally,  
as being constructed at the out-  
let of the lowest lake, thus catching the  
flow from all the lakes. By this  
lake Phoebe and Mary will be  
one body of water, while above  
Lake Martha and Catherine will  
be contributing reservoirs. About  
\$1,000,000 will be spent on this dam.  
The dam will be built across the  
head of the twin lakes at a cost of about  
\$1,000,000 and more than a quarter of a  
million of gallons of water will be stored.  
It will be necessary to cut  
considerable timber around the  
head of the lakes that are to be con-  
verted into reservoirs, the wonderful  
scenery of the lakes will not be mate-  
rially impaired.

# IRRITATING AND DISFIGURING PIMPLES

On Face, Also Blackheads, Pimples  
Red and Inflamed. Cuticura Soap  
and Cuticura Ointment Cured.

R. F. D. No. 2, Advance, Mo.—"I had  
a very bad case of pimples on my face which  
were very troublesome, as they would get  
sore and would leave red  
spots where they healed. I  
also had blackheads in my  
skin. The pimples were red  
and inflamed and would come  
to a head. They would run  
yellowish pus and each one  
had a hard core-like lump in  
it. They were very irritating  
and disfiguring.

"I was troubled with them six months  
and had tried several remedies which did  
no good. Cuticura Soap and Ointment did  
the work. I would wash my face with the  
Soap and hot water then apply the Oint-  
ment. In about half an hour I would wash  
again with the Soap. In two months I was  
cured and the red spots have gone."

(Signed) Miss Ollie Richmond, Oct. 17, 1913.  
A generation of mothers has found no soap  
so well suited for cleansing and purifying the  
skin and hair of infants and children as  
Cuticura Soap. Its absolute purity and re-  
freshing fragrance alone are enough to  
recommend it above ordinary skin soaps,  
but there are added to these qualities delicate  
yet effective emollient properties, derived  
from Cuticura Ointment, which render it  
most valuable in overcoming a tendency to  
distressing eruptions and promoting a nor-  
mal condition of skin and hair health.  
Cuticura Soap (25c) and Cuticura Ointment  
(50c) sold everywhere. Liberal sample of  
each mailed free, with 32-p. book. Address  
post-card "Cuticura, Dept. T, Boston."  
Men who shave and shampoo with Cu-  
ticura Soap will find it best for skin and scalp.

# WILL GIVE LECTURE ON ORIENTAL LANDS

"Siam, the Land of the White  
Elephant," Topic of Talk  
by Rev. H. W. Rehder.

Dr. H. W. Rehder, president of West-  
minster college, will resume his lectures  
on oriental lands at the First Presby-  
terian church on Sunday night. The lec-  
ture for Sunday evening will be "Siam,  
the Land of the White Elephant."  
Siam, although a most interesting coun-  
try, is little known to the ordinary tour-  
ist because it is off from the main steam-  
ship lines. It requires a disagreeable  
journey on small boats over the stormy  
China sea to reach Bangkok.

Mr. Rehder will describe the overland  
journeys of his party through the north-  
ern mountains and into the Laos jungles.  
It is worth while, he says, to follow  
by the mind and eye a company of Amer-  
icans traveling for nine days on horse-  
back over mountains and through ham-  
poo jungles in a country which has not  
a foot of railroad in it.

The illustrations will be interesting

and informing. The colored pictures of  
overland travel through the jungles give  
a romantic touch to the lecture. Much  
of information on governmental, educa-  
tional, social, medical and religious mat-  
ters will be given in the lecture. A gen-  
eral invitation is given to the public to  
hear this lecture.
